

# STS DAM+

Professional Tabletop Stand for use with  
DAM+ modules and derivatives

**AKG**  
by HARMAN

## For all kind of meetings – from houses of worship to court rooms

The STS DAM+ is based on a heavy duty table stand. Due to its heavy weight it is very well shock absorbing and holds the microphone firm on place. The connector fits to AKG's DAM+ series and offers a variety of different gooseneck and capsule options – for all needs. The switch is extremely rugged (more than 25.000 switching cycles) and programmable to the following functions: push to talk, push to mute, push on/off, low cut on/off. The status of the microphone is displayed by the gooseneck's LED. As output the device offers a gold plated 3pin XLR socket.

### **Heavy Duty**

*Firm fit and shock absorbing*

### **Elegant black matte design and 30cm slim line gooseneck**

*Discreet look*

### **High quality connector**

*Long lasting and secure contacts – well EMC protected*

### **Programmable Functions**
