

Infrared audio transmission ensures interference-free and safe communication directly to personal hearing devices.

Ideal for confidential areas like courtrooms, conference rooms, and multiplex cinemas with neighbouring transmission systems.

It is also valuable in schools, universities, and large auditoriums with partial signal coverage or high radio-frequency emissions in city centres.

PRO IR-101 KIT for small spaces

- 1 x PRO IR-202 IR-Transmitter (HT A-4082-0)
- 1 x PR-22 Belt Pack IR Receiver (HT A-4037-0)
- 1 x Single Charger for PR-22 (HT A-4971-0)
- 1 x Headphones (HT A-4908-0)

PRO IR-102 KIT for small to medium spaces

- 1 x PRO IR-202 IR-Transmitter (HT A-4082-0)
- 2 x PR-22 Belt Pack IR Receiver (HT A-4037-0)
- 2 x Single Charger for PR-22 (HT A-4971-0)
- 1 x Mono Neck Loop (HT A-4928-0)
- 1 x Headphones (HT A-4908-0)

PRO IR-202 KIT for medium to large spaces

- 1 x PRO IR-202 IR-Transmitter (HT A-4082-0)
- 3 x PR-22 Belt Pack IR Receiver (HT A-4037-0)
- 3 x Single Charger for PR-22 (HT A-4971-0)
- 2 x Mono Neck Loop (HT A-4928-0)
- 3 x Headphones (HT A-4908-0)

PRO IR-400 KIT for large spaces

- 1 x PRO IR-400 IR-Transmitter (HT A-4026-0)
- 5 x RC1102 2-Channel IR Under Chin-Receiver (HT A-4043-0)
- 1 x 5-Bay Charger for Under Chin-Receiver (HT A-4976-0)
